

The image shows the back of a black, ruggedized handheld device. It has a central antenna protruding from the top. On the left and right sides, there are two antennas each, mounted on a sliding mechanism. The device has a textured, rubberized grip on the sides and bottom. A white label is affixed to the back, displaying the FCC ID and manufacturing information. The device appears to be designed for industrial or military use.

FCC ID: WIC-SZESKY004
MADE IN CHINA
